

DTE Electric Company — Monroe Power Plant
Coal Combustion Residuals
Annual Fugitive Dust Report

Report Summary

This annual CCR fugitive dust control report has been completed pursuant to 40 CFR 257.80(b)(7)(c). The report includes a description of actions taken to control CCR fugitive dust, a record of citizen complaints, and a summary of any corrective measures taken.

CCR Fugitive Dust Control Actions

- a. In May of 2016, two Dust Bosses were placed in service at the vertical extension. The dust bosses, used during dumping activities, mist CCR material as it is being dumped to capture and prevent fugitive dust.
- b. No control activities were required beyond the daily maintenance and operational control activities completed pursuant to the site fugitive dust plan.

Citizen Complaints

No citizen complaints were received from October 2015 to December 5, 2016.

Corrective Actions Taken

No CCR-related corrective actions were necessary from October 2015 to December 5, 2016.

Reported Dates: October 2015 – December 5, 2016

Completed : 12/5/2016

Completed By:

A handwritten signature in cursive script that reads "Kmaas".
