

UNDERGROUND RESIDENTIAL CUSTOMER RELEASE

This release concerns land referred to as: _____
 (“Property”) for service provided by DTE Electric Company, One Energy Plaza, Detroit, Michigan 48226
 (“Company”) as I requested.

This release is intended to be a covenant running with the land and is associated with an easement which I have already granted to Company on this Property.

I realize that Company does not want to install underground equipment where it might interfere with trees, driveways or other underground facilities. Nevertheless, I want Company to install its underground equipment at the location and along the route I have staked and which has been mutually agreed to.

Therefore, for the consideration of Company installing its underground equipment in the location and along the route of my choice (as indicated by my stakes) and as mutually agreed to and, notwithstanding anything to the contrary in the [**Insert CAP Agreement name and Date**], I release and discharge Company, its contractors and agents from liability for property damage which I, my successors and assigns may incur because of the installation, operation or maintenance of this underground equipment. This damage includes, but is not limited to, loss of trees, shrubs or other landscaping. I understand Company will repair driveways that it has damaged during installation or maintenance of the underground equipment and Company will not be responsible for inability to restore a driveway to its original condition.
